

## Turtle Back Zoo, Orange, New Jersey

The Ives Group led by Joel Ives, AIA designed the Bison/Elk facility, which is a unique structure and represents a turning point in the image and direction of the Turtle Back Zoo. It which effects the "quality of life" of the residents of the county by setting the tone for a first class local zoo. Located on a hill, the Bison/Elk Facility and Scottish Highland Cattle exhibit is sited in a highly visible area, which becomes a focal point of the zoo. Within the boundaries of the exhibit thousands of adults and children pass by regularly to learn more about the plains animals and the Scottish Cattle and become more sensitive to the delicate balance of nature.
